Get Print On Tap!
With Samsung NFC Print™

Outstanding Achievement in Innovation: Samsung NFC technology

Enjoy hassle-free mobile printing with NFC technology

Samsung NFC Print: Tap, print and go

- Connect and print with ease using Samsung's monochrome printer with advanced Near Field Communication (NFC) technology.
- Just tap and then print documents from a mobile device¹.

Google Cloud Print™ ready

- Register your printer easily to your Google® account for Google Cloud Print by tapping your mobile device¹.
- Print emails, photos and PDF files anytime, anywhere with Google Cloud Print. Users can access Google Cloud Print from the Samsung MobilePrint app, too.

Samsung MobilePrint app: Advanced mobile printing with more options

- Print with powerful features, including N-up printing, image size adjustment.
- Print various formats and types of documents, such as gallery images, Microsoft® Office® documents, Adobe® PDFs, web pages, e-mail and Google Docs, along with Facebook® content.
- Fix print errors from your smartphone using visual troubleshooting. Just tap when a print error occurs and a video clip guides you through fixing jams, empty toner and more.

Direct printing without an app on Samsung GALAXY devices

- Print from GALAXY S® series devices without needing an app².

Sharp and professional document quality

- Print sharp text and clear images using Rendering Engine for Clean Pages (ReCP) technology.
- Enjoy a 4,800 x 600 dots per inch (dpi) effective resolution.

Diverse printing choices for professional documents

- Handle a wide range of media, up to 220 grams per square meter (gsm), such as labels, cardstock and envelopes, with the multipurpose tray.

Cut costs while lowering energy and toner usage

Professional eco solution

- Automatically activate 2-up (two pages on one side of the paper) and duplex printing, toner-save mode and the option to skip blank pages with the One Touch Eco Button.
- Remove text or images and also change the layout design, such as N-up printing, without changing the original documents before printing with Easy Eco Driver.

Low total cost of ownership (TCO)

- Save on consumables with a separated toner system, a toner cartridge and an imaging unit, each sold separately, ideal for cost-conscious businesses with low printing volumes. Also, users only need to purchase the toner cartridge when empty.
- Lower overall cost per page and maximize productivity by requiring fewer replacements, with a starter toner cartridge (1,200 standard pages), with higher toner yield than average in the market (typically 700 - 1,000 standard pages) and high toner yield (3,000 standard pages).

¹ Mobile devices need to support the NFC feature.

² There is also no app needed for iOS®-supported devices using AirPrint™.

Print diverse media with high speed and quality

High-speed printing and image processing

- Print in speeds of up to 28 pages per minute (ppm), with a 600 MHz ARM® Cortex™-A5 core processor and 128 MB memory.
