Boost productivity with this quiet laser printer that delivers value and high-quality results.

This laser printer brings productivity and exceptional value together. It's a nice addition to any workgroup with fast print speeds and the ability to complete typical office print jobs nearly two times as fast with Instant-on Technology¹.

Good looking—it's a description that works for the prints as well as the compact design of the laser printer itself. How can something so small produce such amazing prints? It's all in the HP design of the printer and all-in-one print cartridge.

Anyone using this laser printer will notice immediately how easy it is to keep the prints coming. From setup to everyday use and maintenance, get the results you want with as little effort as possible.

Keep this little laser printer from being a distraction by setting it on quiet mode. You get fantastic-looking prints, including cards and prescription-size forms, without disturbing those around you.
